

THE DIMOCK CENTER

Healing and caring for the community for over 150 years.

Dear Dimock Community,

I hope you and your loved ones are staying healthy and safe. At The Dimock Center, that remains our highest priority for our patients, families and staff. As we continue to navigate these challenging times together, I feel a tremendous sense of gratitude for the generous support we have received to provide our outstanding level of care to our community. We are deeply grateful for the contributions to our Emergency Fund, donations of food for our residential patients and staff, gifts of beautiful handmade masks, and all of the kind messages and good thoughts sent our way. **Your support is helping to meet the immediate needs of our community during a time when we need your help the most.**

Since I last wrote you, Dimock was awarded a grant from the **City of Boston's Resiliency Fund to support our COVID-19 treatment unit for residential patients.** I am thrilled to report that **today; we were awarded an additional \$60,000 grant from the Resiliency Fund to increase our capacity to test members of our community for the coronavirus.**

Expanding testing sites in communities of color that are disproportionately impacted by the pandemic - - like Dimock's Roxbury neighborhood - - is a priority for the City and we are thankful to Mayor Walsh for this critical support, and for the City's commitment to our community.

Other corporations, foundations and individuals have contributed swiftly and generously to our Emergency Fund, having a tremendous impact on work each day. **Thank you for this transformative support.** You can click [here](#) to view the full list of dedicated donors and information about how you can join them in supporting the Dimock Center Emergency Fund.

I have said it before, but it bears repeating: you make our work possible and I am so glad to count you in the Dimock Family. Thank you again and be well.

Sincerely,
Peter Gerondeau
Interim President and CEO
